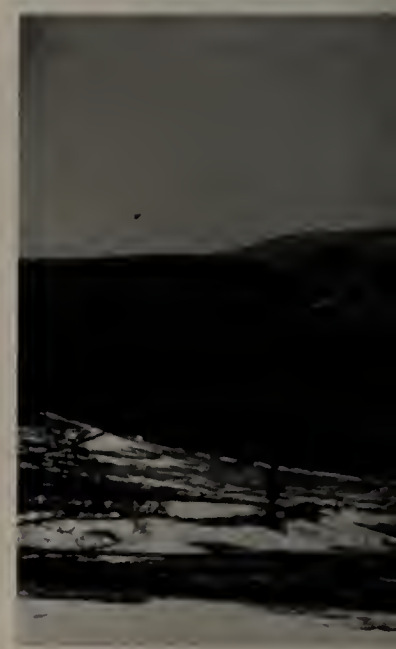
MOU
1974
C.2

During the past five years, Mr. Paul Audette has been with Wachusett both as a teacher and guidance counselor. In the former capacity, he brought warmth and humanism into the classroom, educating in the field of math, assisting in instituting a club for chess players, and tutoring those who sought help in various areas. More recently in the guidance office, he has not only been a sympathetic and understanding advisor in both school-related and personal affairs, but he has also involved himself in committees and organizations for the betterment of the atmosphere of school life. Therefore, we the class of 1974 proudly dedicate our yearbook to him.

There are places I remember



In my life, though some have changed.

Some forever not for better

Some have gone

and some remain . . .

Though I know I'll never lose affection

For people and things that went before.

I know I'll often stop and think about them.

But in my life

I've

loved

them

all.

People and Things

Mr. Edward Yaglou, Superintendent of Schools

By this time most of you are really excited about being "on your own" in the near future. As you go about your dealings with your fellow man in the years ahead, I'd like to suggest one vital quality to your attention. This is the quality of empathy, of understanding, of being able to place yourselves in the other fellow's shoes. Education and training at all levels currently use role-playing and case history analysis to provide new experiences through make-believe. It is probably impossible for an affluent white to know all the feelings and experiences of the poor black and vice versa; similarly between Jew and Arab, apartment dweller and land owner, have and have-not, young and old, boisterous and withdrawn, adoring wife and liberationist. But could we all try? The ability to place ourselves in the other fellow's position is not only universally admired, it is good human relations.

Best wishes to each of you as you establish, for yourself as well as for others, who YOU are and what you stand for.

Edward Yaglou

Mr. Peter Farrelly
Associate Superintendent

Mr. William Carey
Assistant Superintendent

Mr. David Johnson
Business Manager

To the Class of 1974,

We are in the midst of trying times. Pollution, political intrigue, and the energy crisis are only a few of the many problems which plague the world today. However, we are confident that you can put our society back in order.

You are graduating from an outstanding secondary school and should be well prepared to face the future with confidence. Each of you has contributed much to this school and I certainly hope the school has alos contributed a great deal to you. We have certainly tried to accomplish this.

Whatever your future plans are — college, the business world, the armed services, or married life — we certainly hope you will be completely successful.

My very best wishes to you all,

Neal T Skillings

Neal T. Skillings
Principal

Dear Members of the Class of 1974,

You are truly at a rare moment in your life when you may look both backwards and forward while firmly planted in the present. For commencement is both an ending and a beginning. It is a time for assessing the sum total of your lives to date and for setting out to turn your dreams into reality. You as a class and individually have accomplished much to now but your promise is still far brighter than your successes. It is my fondest hope that you will continue to grow and stretch to catch your own particular star!

Get involved in your own lives and in the affairs of your society. Be diligent in your pursuit of excellence regardless of the direction that pursuit may take.

When you have time to pause and reflect on the years just past, I am sure you will pay silent tribute to your parents and your teachers for the guidance given you in these most important years.

Peace and best wishes in the years ahead. Be happy, be successful and keep in touch, for we will always retain an interest in you.

Very truly yours,

Harold M. Lane Jr.

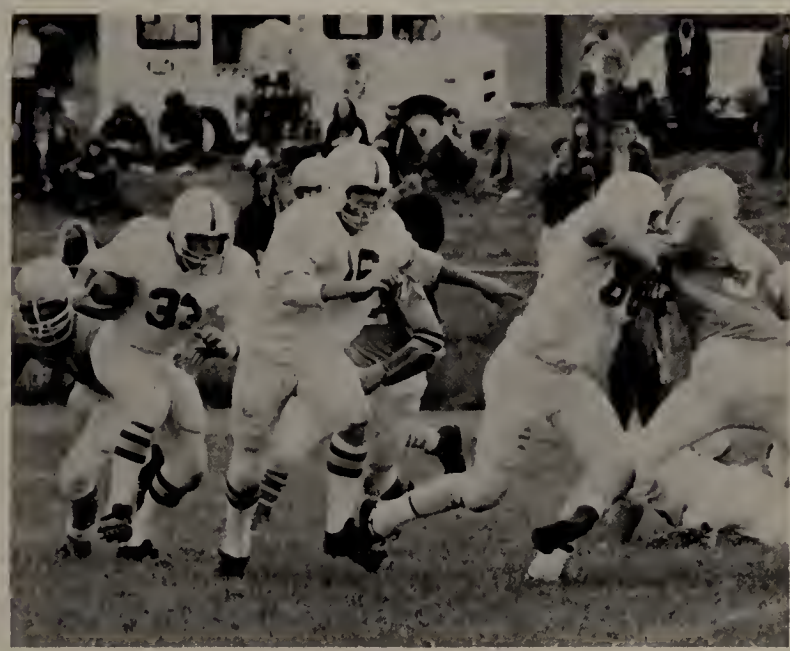
News Recarder All Star and MVP — Peter Jennette



The 1973 Mountaineer football team completed its season this year with a heartbreaking record of 1 win and 8 losses. It was a rebuilding year for the team and their record is not really a true indication of the quality of their playing. The Mountaineers came through for the Wachusett fans on Thanksgiving Day with a 27-0 victory over Shrewsbury High.

Field Hockey

The talented girls' field hockey team finished the season with a superb 10-1?-1 record. The only loss resulted from a disputed goal in a game against Leominster. An all-around team effort made this a truly successful season. Leslie Greis led scoring with help from M.V.P. Nancy Fifield. The girls were coached by Miss Jennifer Baxter, and team-spirited Julie Rollins was named captain.

The Beginning

The day has finally come
and gone
All good things come to an end
As do all bad. As a ray
Shoots off into infinity —
Forever growing more
distant
From its previous points —
So do our lives.

And as I grow more distant
From these past four years
(An infinity in themselves),
I wish one lone thing:
That these four points never,
never
Be forgotten —
That two-and-a-half by three inch
"Wallets" stay more than
Misty memories kept alive
By Kodak.

Spring blows sweet songs into
my heart.
Thawing the chill threats of
a winter still
near;
So grows the worn
whistling
into a new symphony.

Graduation;

The joy of having

Fall; the time of
burning leaves,
Chilling winds, and
dying grass.
But best of all,
Fall
Means that the time
of the sleep
is near,
At last.

Danny Ahearn

The day was like
A lonely
child
The sun just did
not
try hard enough.

Life means nothing!
But give me a blue sky, a bright sun,
And an open field or snow covered
mountains
And I will make my own reality!

Always Remember

Dusk now, and stillness passes as I
lie here thinking,
Recalling the moments, the memories, the
feelings.
Despite time and distance I always
return.
Times shared and emotions deeply
felt sift back.
Barriers remain unable to remove
that which has become
a part of me.

Like the horizon
Reaching across the depths of my
mind
Thought calls for peace.
A horizon is the place
To find still puddles of past rains
That beat down from heaven
That man has built for his God
But God is here
Like the horizon
Buildings that house people
From the riches of the world.
All around this spinning mass
of cement and grass
From which man's world
And heaven are built
Like the horizon
Reaching out to all who see.

"I love you" they

Quiet overcame —

My Country Tis

It was dawn and we children
are all aplay, no cares have we,
time passes without bitterness.
    Round and round I go, forever free
    to see and be,
    and friends let me tell you of he.
Twas past dawn, and we children
are all aplay, no cares have we,
time passes without bitterness.
    There on a spinning tree perches
    a lonely bird.
    Suddenly he appears then is gone
    And I lull for him.
It was noon, and we children
are all aplay, no cares have we
time passes without bitterness.
    Before my eyes the bird appears,
    we face each other, just he and me,
    as the sunshine faces glide by.
Twas past noon, and we children
are all aplay, no cares have we,
time passes without bitterness.
    "I can teach you, eagle. Watch my
    friends and you will see."
    He just stared and suddenly seemed
    huge and hungry.
The sun slid, and we children
are all aplay, no cares have we,
time passes without bitterness.
    Oh my eyes, oh can it be?
    You are not a bird!
    Eagle, tell me is it true,
    have you torn my eyes? Can
    this be? Oh I am so
    dizzy, please tell me.
    It whispers, "Now
    that you can see, you
    are fit to serve your
    countree."
Tis past night, and we children
all play dead. Oh cares have we,
time passes with bitterness.

Cape Cod Liaison

The sea, the sea,
I heard her last night.
Her waters ebbing a tidal flow of sadness within
Meadows of sand.
Hills of ageless salt confine
Gulls winging white shadow
Crisscross your mellowed suntan.
Lapping, ever moving, caressing the water front
With a single tireless sigh.
And your lips are salty.
And your hair like the flax of southern Indiana.
What a mystery was that effervescent voice.
Such reflections of curiosity
Are confounded with pleasure.
Permit me just once the intricacies of
you.

In Passing

In waning hours,
Winter mourns its loss,
While beneath the silent shroud,
Her heir prepares to rise.

Life returns;
As time, again, has dealt
the mortal blow.
